

Hot Solutions™ Platters

INNOVATION AT YOUR TABLE

Platter Innovations

UNIQUELY DESIGNED INNER CORE WITH HEAT SHIELD CONSTRUCTION TOLERATES SKILLET TEMPERATURES UP TO 500° F WHILE MINIMIZING HEAT TRANSFER TO TABLETOP.

- Continuous Support Flange Traps Hot Air
- Inner core traps heat at 200° F
- Lightweight insulation and heat core keeps platter cool to the touch

Place skillet on the Hot Solutions™ platter.
Heated skillet temperature must not exceed 500° F.

SIZZLING EFFECTS

Nothing takes a steaming skillet from stove-top to tabletop like the **Hot Solutions™ Skillets**. Use them with our **Hot Solutions™ Platters** for a presentation that will have your guests in awe when you serve them their sizzling plate of food.

⊕ FEATURES

- The lightweight insulation protects the table from heat transfer.
- Side rails protect hands from hot skillet.
- The edge is rolled for an upscale look and easy handling.
- The platter fits any standard fajitas skillet and includes room for the skillet to expand when heated.
- A notched foot holds skillet steady and allows for draining when washing.
- Platters are stackable.
- Custom colors, shapes, and molded logos are available.
